

Angel Vergara

OPERATIONS-TO-AI WORKFLOW BUILDER | APPLIED AI WORKFLOWS & GOVERNED SYSTEMS

Orlando, Florida | Remote, U.S. | avergara13@me.com | 407-432-6959 | [Portfolio](#) | [LinkedIn](#)

PROFILE

Hospitality operations-to-AI workflow builder focused on useful, human-controlled systems. Combines verified restaurant leadership and financial/administrative workflow ownership with working application and systems proof, structured outputs, review gates, exception handling, recovery logic, and clear implementation documentation. Builds from real operating friction rather than hypothetical process diagrams. English/Spanish bilingual capability supports training, documentation, and adoption.

CORE STRENGTHS

AI-assisted workflow design | LLM API integration | prompt and structured-output design | human approval gates | multi-agent workflow architecture | process mapping | exception and recovery logic | evidence-backed review | product delivery | implementation documentation | hospitality operations | bilingual English/Spanish

SELECTED PRODUCT AND SYSTEMS WORK

- Resale Scanner Pro - Working personal AI-assisted application used in a small family resale workflow; built with React, TypeScript, Vite, Node/Express, Supabase, and Railway, with Gemini, Claude, marketplace/API integrations, automation, and GitHub delivery workflows.
- Loft OS - Sanitized architecture case study: agentic workflows with scoped roles, human authorization, evidence-backed review, fail-closed controls, recovery paths, and deterministic closeout.
- Sous Chef - Public application: AI-assisted culinary workspace with authenticated recipe flows, pantry and inventory signals, cookbooks, and cooking-session history.

SELECTED PROFESSIONAL EXPERIENCE

Cafe Linger - Executive Chef to General Manager | Orlando, FL | May 2018-Dec 2022

- Became General Manager in Jan 2019 and owned day-to-day workflows spanning production, inventory, purchasing, vendors, staff training, reporting, compliance, and customer experience.
- Worked with POS data, spreadsheets, invoices, payroll information, QuickBooks, P&L review, vendor pricing, and cash-flow-aware decisions - the operating problems now informing restaurant-automation concepts.
- Continued paid account-closure, administrative, and restaurant-consulting work through Jan 2024 after restaurant operations ended in Dec 2022.

Farm-Haus / Farm & Haus - Chef de Cuisine | Greater Orlando | Sep 2015-Apr 2018

- Began with kitchen-workflow consultation, then led production, ordering, inventory, quality, training, and service routines.
- Worked directly with ownership on operating consistency and growth support.

Earlier Culinary Experience & Leadership | Florida and Massachusetts

- Progressed from line and pastry work into Sous Chef and Head Chef responsibilities across high-volume restaurants, openings, and hotel operations.
- Built practical judgment around handoffs, exceptions, quality controls, inventory counts, ordering, training, and service recovery.

EDUCATION

- Florida International University - B.S., Hospitality Management; Minor, Beverage Management
- The Culinary Institute of America - A.S., Culinary Arts; May 2007-Apr 2010
- Valencia Community College - A.A., General Studies

TOOLS

React | TypeScript | Vite | Tailwind | Node/Express | Railway | Supabase integration | Postgres/SQL exposure | Gemini | Claude API | marketplace APIs | Notion | automation design
